

Ecological

A P P L I C A T I O N S

OFFICIAL PUBLICATION OF THE
ECOLOGICAL SOCIETY OF AMERICA

Volume 2, 1992

Published Quarterly at Tempe, Arizona
by the
Ecological Society of America

THIS PUBLICATION IS PRINTED ON ACID-FREE PAPER.

The Ecological Society of America

OFFICERS FOR 1992-1993

President:

JANE LUBCHENCO, Oregon State University

Vice President:

KATHERINE L. GROSS, Michigan State University

Secretary:

ROBERT K. PEET, University of North Carolina

Treasurer:

LOUIS F. PITELKA, Electric Power Research Institute

Business Manager:

DUNCAN T. PATTEN, Arizona State University

AIMS

THE ECOLOGICAL SOCIETY OF AMERICA was founded in 1915 for the purpose of unifying the science of ecology, stimulating research in all aspects of the discipline, encouraging communication among ecologists, and promoting the responsible application of ecological data and principles to the solution of environmental problems. Ecology is the scientific discipline that is concerned with the relationships between organisms and their past, present, and future environments. These relationships include physiological responses of individuals, structure and dynamics of populations, interactions among species, organization of biological communities, and processing of energy and matter in ecosystems.

MEMBERSHIP

Membership is open to persons who are interested in the advancement of ecology or its applications, and to those who are engaged in any aspect of the study of organisms in relation to environment.

The classes of membership and their annual dues for 1993 are:

DEVELOPED COUNTRIES

Regular member: \$40.00

Student member: \$18.00

Life member: Contact the Business Manager

Emeritus member: Free

Subscriptions to the journals are **not** included in the dues for *Regular*, *Student*, and *Emeritus* members. See below for membership subscription rates. *Regular* and *Student* members who do not wish to receive the BULLETIN may subtract \$5.00 from their membership dues.

DEVELOPING COUNTRIES

Special member - A (includes subscription to *ECOLOGY*)

\$30.00

Special member - B (includes subscription to *ECOLOGY* + *ECOLOGICAL MONOGRAPHS*
+ *ECOLOGICAL APPLICATIONS*)

\$40.00

Special members are those in developing countries. For this class of membership only, the membership dues and journal subscriptions are combined.

PUBLICATIONS

The Society publishes a bulletin and three journals. The BULLETIN OF THE ECOLOGICAL SOCIETY OF AMERICA, issued quarterly, contains announcements of meetings of the Society and related organizations, programs, awards, articles, and items of current interest to members. The bimonthly journal *ECOLOGY* publishes essays and articles that report and interpret the results of original scientific research in basic and applied ecology. *ECOLOGICAL MONOGRAPHS* is a quarterly journal for longer ecological research articles. *ECOLOGICAL APPLICATIONS*, published quarterly, contains ecological research and discussion papers that have specific relevance to environmental management and policy.

1993 subscriptions are available to ESA members as follows:

	<u>Regular</u>	<u>Student</u>		<u>Regular</u>	<u>Student</u>
ECOLOGY	\$50.00	\$35.00	ECOLOGICAL APPLICATIONS	\$25.00	\$20.00
ECOLOGICAL MONOGRAPHS	\$20.00	\$15.00	BULLETIN OF THE ECOLOGICAL SOCIETY OF AMERICA	Free to members	

Reduced subscription rates are available for *Emeritus members* (contact the Business Manager).

Application blanks for membership may be obtained from the Business Manager, to whom all correspondence concerning membership should be addressed. Checks accompanying membership applications should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

TABLE OF CONTENTS

VOLUME 2, 1992

NUMBER 1, FEBRUARY

Conservation Biology

BRUSSARD, P. F., AND P. R. EHRLICH The challenges of conservation biology	1-2
MURPHY, D. D., AND B. R. NOON Integrating scientific methods with habitat conservation planning: reserve design for Northern Spotted Owls	3-17
STACEY, P. B., AND M. L. TAPER Environmental variation and the persistence of small populations	18-29
HEDRICK, P. W., AND P. S. MILLER Conservation genetics: techniques and fundamentals	30-46

Other Articles

ESSER, G. Implications of climate change for production and decomposition in grasslands and coniferous forests	47-54
RASTETTER, E. B., A. W. KING, B. J. COSBY, G. M. HORNBERGER, R. V. O'NEILL, AND J. E. HOBBIE Aggregating fine-scale ecological knowledge to model coarser-scale attributes of ecosystems	55-70
RIEGEL, G. M., R. F. MILLER, AND W. C. KRUEGER Competition for resources between understory vegetation and overstory <i>Pinus ponderosa</i> in northeastern Oregon	71-85
LIRA, J., G. R. MARZOLF, A. MAROCCHI, AND B. NAUGLE A probabilistic model to study spatial variations of primary productivity in river impoundments	86-94
BEN-SHAHAR, R. The effects of bush clearance on African ungulates in a semi-arid nature reserve	95-101

NUMBER 2, MAY

NAPAP and Biodiversity

LEVIN, S. A. Orchestrating environmental research and assessment	103-106
RUSSELL, M. Lessons from NAPAP	107-110
COWLING, E. B. The performance and legacy of NAPAP	111-116
LOUCKS, O. L. Forest response research in NAPAP: potentially successful linkage of policy and science	117-123
SCHINDLER, D. W. A view of NAPAP from north of the border	124-130
SOLBRIG, O. T. The IUBS-SCOPE-UNESCO program of research in biodiversity	131-138

Other Articles

HEINZ, K. M., AND M. P. PARRELLA The effect of leaf-mining by <i>Liriomyza trifolii</i> on seed set in greenhouse marigolds	139-146
JAKUBAS, W. J., P. S. SHAH, J. R. MASON, AND D. M. NORMAN Avian repellency of coniferyl and cinnamyl derivatives	147-156
BINKLEY, D., D. D. RICHTER, M. B. DAVID, AND B. CALDWELL Soil chemistry in a loblolly/longleaf pine forest with interval burning	157-164
PULLIAM, H. R., J. B. DUNNING, JR., AND J. LIU Population dynamics in complex landscapes: a case study	165-177
MINTA, S. C. Tests of spatial and temporal interaction among animals	178-188
WALTERS, C. J., L. GUNDERSON, AND C. S. HOLLING Experimental policies for water management in the Everglades	189-202
KREMEN, C. Assessing the indicator properties of species assemblages for natural areas monitoring	203-217

Instructions to authors	218
-------------------------------	-----

NUMBER 3, AUGUST

Multiple-Use Management

SWANK, W. T., AND D. H. VAN LEAR	
Ecosystem perspectives of multiple-use management	219-220
KESSLER, W. B., H. SALWASSER, C. W. CARTWRIGHT, JR., AND J. A. CAPLAN	
New perspectives for sustainable natural resources management	221-225
SHARITZ, R. R., L. R. BORING, D. H. VAN LEAR, AND J. E. PINDER, III	
Integrating ecological concepts with natural resource management of southern forests	226-237
HORNBECK, J. W., AND W. T. SWANK	
Watershed ecosystem analysis as a basis for multiple-use management of eastern forests	238-247
GOSZ, J. R.	
Gradient analysis of ecological change in time and space: implications for forest management	248-261
SWANSON, F. J., AND J. F. FRANKLIN	
New forestry principles from ecosystem analysis of Pacific Northwest forests	262-274

Other Articles

GEORGE, T. L., A. C. FOWLER, R. L. KNIGHT, AND L. C. McEWEN	
Impacts of a severe drought on grassland birds in western North Dakota	275-284
BRESHEARS, D. D., T. B. KIRCHNER, AND F. W. WHICKER	
Contaminant transport through agroecosystems: assessing relative importance of environmental, physiological, and management factors	285-297
HOGG, E. H., V. J. LIEFFERS, AND R. W. WEIN	
Potential carbon losses from peat profiles: effects of temperature, drought cycles, and fire	298-306
WOOTTON, J. T., AND D. A. BELL	
A metapopulation model of the Peregrine Falcon in California: viability and management strategies	307-321

NUMBER 4, NOVEMBER

Responses of Ecosystems to Stress

Leadley, P. W., and J. F. Reynolds	
Long-term response of an arctic sedge to climate change: a simulation study	323-340
STEINMAN, A. D., P. J. MULHOLLAND, A. V. PALUMBO, D. L. DeANGELIS, AND T. E. FLUM	
Lotic ecosystem response to a chlorine disturbance	341-355
LUKEN, J. O., A. C. HINTON, AND D. G. BAKER	
Response of woody plant communities in power-line corridors to frequent anthropogenic disturbance	356-362
OHTONEN, R., A. MUNSON, AND D. BRAND	
Soil microbial community response to silvicultural intervention in coniferous plantation ecosystems	363-375
DYER, M. I., AND H. H. SHUGART, JR.	
Multi-level interactions arising from herbivory: a simulation analysis of deciduous forests utilizing FORET	376-386
CHEN, J., J. F. FRANKLIN, AND T. A. SPIES	
Vegetation responses to edge environments in old-growth Douglas-fir forests	387-396

Other Articles

Lauenroth, W. K., and O. E. Sala	
Long-term forage production of North American shortgrass steppe	397-403
RYTI, R. T.	
Effect of the focal taxon on the selection of nature reserves	404-410
LESICA, P.	
Autecology of the endangered plant <i>Howellia aquatilis</i> ; implications for management and reserve design	411-421
KENDALL, K. C., L. H. METZGAR, D. A. PATTERSON, AND B. M. STEELE	
Power of sign surveys to monitor population trends	422-430
MANASSE, R. S.	
Ecological risks of transgenic plants: effects of spatial dispersion on gene flow	431-438
SEMEL, B., AND L. K. NICOLAUS	
Estrogen-based aversion to eggs among free-ranging raccoons	439-449
BUSCH, D. E., N. L. INGRAHAM, AND S. D. SMITH	
Water uptake in woody riparian phreatophytes of the southwestern United States: a stable isotope study	450-459
FLEMING, R. A., AND C. A. SHOEMAKER	
Evaluating models for spruce budworm-forest management: comparing output with regional field data	460-477
